

Merry Christmas

We pray that God has blessed you and your family this year and know that He has been found faithful in each of your lives. As we think back over the past year, we are so thankful for God's grace and wisdom. He is so good to us! We continue to enjoy the ministry and team that God has given us here in Missouri at the New Tribes Mission Tech Center.

Benjamin keeps busy solving many technical problems from missionaries around the world. Now that the Tech Center is well established, we are excited to reach out to serve missionaries from other like-minded missions. We offer our customized products and solar system designs as well as specialized assistance with large projects. This past year we have been involved with helping missionaries in PNG, Indonesia, Togo, Mozambique, Guinea, Brazil, Mexico and many other countries. How thrilling to be a part of bringing the message of the Gospel to so many needy people.

Benjamin has begun pursuing his masters in Electronic Engineering at the Missouri University of Science and Technology. He has completed one class this fall semester and plans to continue taking one or more classes a semester as time allows. We know this extra education will help him to be a more effective consultant in some of the challenging situations presented to the Tech Center.

Our family grew in September with the arrival of little Abigail Debra. Now, at three months old, she is all smiles and coos. What a joy to have another little one in the house. Elianna is an attentive big sister to Abigail and is quick to find her a blanket or pop in her pacifier (whether she wants it or not).

At two years old, Elianna is talking non-stop these days and surprises us every day with her new vocabulary. She is a cheerful, active little girl who enjoys being outside, swimming, reading books and singing.

Jody is blessed to be able to stay home and care for our wonderful girls as they require extra attention during these formative years of their lives. As time allows she continues to assist the ministry of the Tech Center.

We are thankful for each of you and your part in our lives and ministry. Keep pressing on!

Rejoicing in our Savior,

Benjamin, Jody, Elianna and Abigail Baum
